BUREAU OF STANDARDS CHARGES FOR OFFICIAL REPORT OF COMPARISON

Available on steel tapes of the better grades, on which no graduation or reference mark appears on extraneous material, such as hooks, sleeves, rings, tags, etc. Actual physical tests are available on tapes 200' or less in length. Only computed tests available on tapes more than 200' long.

The test, or tests, are performed by the National Bureau of Standards, Washington, D. C. The report is issued by the Bureau. Allow 60 to 90 days.

To the following schedule of test fees must be added the transportation charges to and from Washington, D. C. These charges are the usual costs from the U. S. Bureau of Standards.

TEST 212.214A—This is a prerequisite test, on which the Bureau insists prior to conducting any further tests. This test determines the actual length of the tape when fully supported on a horizontal flat surface at 68°F. under the standard tension of 10# for tapes 100' or less in length; 20# tension for tapes more than 100' long.

Price—for each 200' or shorter tape; or for each 200' interval or fraction thereof..... \$52.00

TEST 212.214F—This test determines the tension required for best results when tape is fully supported on a horizontal flat surface at 68° F.

Price—for each 200' or shorter tape; or for each 200' interval or fraction thereof..... 10.00

TEST 212.214J—This test determines the tension required for best results when tape is supported only at the two terminal markings of the tape, at 68° F.

Price—for each 200' or shorter tape.....10.00

TEST 212.214J—Net charge for tapelines only that are not mounted on reels..... 10.00
